

Applying for a place at Loreto College

What happens after the application deadline?

Course Consultation

Successful students will be invited to a course consultation*. This is an informal interview where you will discuss your subject choices and career goals with one of our course advisors. You can bring along your parents or carer if you like.

New Students' Day

This is a really popular event that takes place in late June, when we invite interviewed students to visit Loreto and explore the campus. This is also a great opportunity to try out subjects and decide which one is the right fit for you.

Enrolment

During the summer, we will send you a letter with details about online pre-enrolment and it will also include the date for your appointment to come to College to complete your enrolment and collect your student ID before term starts.

***We aim to have decision letters sent to all applicants by the end of March 2025.**
